Re: DeKalb Well #14

Mr. Faivre:

Per your request, it is Layne's pleasure to provide this estimate to perform a maintenance inspection on DeKalb's Well 14 Byron Jackson submersible pump. According to Layne records, this pump was last removed 2005.

A Layne Tech visited the site yesterday to troubleshoot a tripping problem. He determined that the unit is experiencing a single phase issue between the controls and the submersible motor. Due to the security box over the pitless adapter, he could not meg the cable and motor from the well head. It is possible that the single phase issue is between the well head and the controls but more than likely the problem is with the down hole motor or cable.

If contracted, Layne will perform the work on a time and material basis per the attached Work Order Form. The following maintenance budget is based upon normal pump removal without unusual circumstances such as pump separation and based upon the crew, equipment, and time required removing and setting the pump in 2005.

DeKalb should be aware that the installation's Byron Jackson submersible motor is the most reliable motor available for northern Illinois' deep well application (over 400 in operation). The Byron Jackson submersible motor is a sophisticated machine that utilizes a mercury seal system and oil filled cooling/lubrication. Layne employs the only Technicians that are trained and authorized to manage and service these motors by the manufacturer.

Furthermore, as of 2012 Illinois legislation, Layne can no longer sell or distribute these Type H (mercury seal) motors. HOWEVER, if the motor is electrically and mechanically sound, the motor may be returned to operation with a simple service that includes oil, gasket, and filter change service at a vastly reduced cost and turnaround time as compared to acquiring a new motor. Layne employees are the only Technicians certified to perform this motor service.

WATER RESOURCES

It is difficult to budget the cost of necessary repairs prior to inspecting the pump components. It is Layne's custom to meet with an Owner representative and our Crew Foreman to conduct a preliminary inspection of the racked components on site. During this inspection, it is decided which components require additional clean up and inspection in Layne's Aurora, IL yard. (As DeKalb retains a spare bowl assembly, a spare motor, and spare Line Pipe, this inspection would be for the purpose of analyzing equipment that could be stored as spare components.) Layne encourages DeKalb to visit our yard to inspect components with us. At this point, Layne is in position to present a Pump Inspection Report with observations, recommendations, and an accurate repair cost estimate.

Pump Maintenance Budget Estimate

1. Mobilize, remove pump, rack on site, measure well total depth	\$17,500
2. Reinstall pump after necessary repairs, conduct capacity test to waste, demobilize	<u>\$22,500</u>

Under assumptions that the bowl assembly, motor, and Line Pipe will be replaced by City spare components and the removed components will be inspected for their eligibility as future spare components, the budget estimate for the project is \$55,000.

Thank you for the opportunity to furnish this information. If you have any questions, would like to meet to discuss, or if Layne can be of any service, please do not hesitate to contact me.

TERMS AND CONDITIONS

LIABILITY OF CONTRACTOR: Contractor shall not be liable for any bodily injury, death, or injury to or destruction of tangible property except as the same may have been caused by the negligence of Contractor. In no event shall Contractor be liable for any delays or special, indirect, incidental or consequential damages. Purchaser agrees that the total limit of Contractor's liability (whether based on negligence, warranty, strict liability or otherwise) hereunder, shall not exceed the aggregate amount due Contractor for services rendered under this contract. All claims, including claims for negligence or any other cause whatsoever, shall be deemed waived unless made in writing and received by Contractor within one (1) year after Contractor's completion of work hereunder.

INSURANCE: Contractor shall provide workers' compensation insurance, public liability and property damage insurance covering its employees and operation. Purchaser, at its option, may maintain such insurance as will protect it against claims arising out of the work.

REIMBURSABLE COST: In addition to the hourly charge provided on the face of this contract, Purchaser will reimburse Contractor for travel and living expenses necessarily incurred by the Contractor in the performance of the work, minor incidental expenses such as overnight mail, telephone and petty cash expenditures necessarily incurred, cost of removal of all debris if so directed by Purchaser, sales, consumer, use and similar taxes required by law and the cost of permits and all licenses necessary for the execution of the work. The foregoing costs shall be billed at actual cost plus fifteen percent (15%) unless otherwise agreed upon.

PRICE ADJUSTMENT: Any cost estimates or time frames stated herein are subject to equitable adjustment in the event of differing or unforeseeable conditions, changes in applicable laws after the date of this contract, unforeseeable delays or difficulties caused by acts of God, Purchaser or any third parties. Prices of goods acquired by Contractor from others shall be adjusted to reflect Contractor's price in effect at time of shipment. The price of Contractor's goods will be adjusted to the price in effect at time of shipment in accordance with Contractor's current escalation policies or as specifically covered in this contract.

TERMS: Thirty (30) days net from date of invoice. For extended projects, Contractor shall submit invoices on a monthly basis for any and all work completed and materials or equipment provided during the previous month. Past due invoices shall be subject to a delinquency charge of one and one-half percent (1-1/2%) per month (eighteen percent (18%) per annum) unless a lower charge is required under applicable law, in which case the lower rate shall apply. Purchaser agrees to pay all collection fees, attorneys' fees and costs incurred in the collection of any past due amounts arising out of this contract. Contractor shall have the right to immediately terminate this contract without further liability if Purchaser fails to make timely payment or otherwise materially breaches this contract.

MATERIAL SHORTAGES AND COST INCREASES: If any portion of materials or equipment which Contractor is required to furnish becomes unavailable, either temporarily or permanently, through causes beyond the control and without the fault of Contractor, then in the case of temporary unavailability any completion time frames shall be extended for such period of time as Contractor shall be delayed by such above-described unavailability, and in the case of permanent unavailability Contractor shall be excused from the requirement of furnishing such materials or equipment. Purchaser agrees to pay Contractor any increase in cost between the cost of the materials or equipment which have become permanently unavailable and the cost of the closest substitute which is then reasonably available.

DELAYS: If Contractor is delayed at any time in the progress of work by labor disputes, fire, unusual delays in transportation, unavoidable casualties, weather, or any cause beyond Contractor's reasonable control, then any completion time frames shall be extended by a reasonable period of time, at least equal to the period of delay.

CHANGED CONDITIONS: The discovery of any hazardous waste, substances, pollutants, contaminants, underground obstructions or utilities on or in the job site which were not brought to the attention of Contractor prior to the date of this contract will constitute a materially different site condition entitling Contractor, at its sole discretion to immediately terminate this contract without further liability.

ESCALATION: This contract is made with the understanding that Contractor will be able to begin and continuously proceed with its work on or before the proposed start date on the reverse side hereof. In the event Contractor is unable to commence its work on or before said date because the project is not ready for Contractor's work, Contractor will charge Purchaser the amount of increase in Contractor's cost attributable to such delay, plus Contractor's normal overhead percentage.

GUARANTEE AND LIABILITY: Contractor warrants that its labor supplied hereunder shall be free from defect and shall conform to the standard of care in effect in its industry at the time of performance of such labor for a period of twelve (12) months after substantial completion of Contractor's work. Contractor agrees, to the extent it is permitted, to pass on any warranties provided by the manufacturers of materials and/or equipment furnished under this contract. Contractor itself provides no warranty, express, implied or otherwise, on any such materials or equipment. Contractor will not be responsible for: work done, material or equipment furnished or repairs or alterations made by others.

For any breach hereunder, Contractor shall be liable only for the value of the installation work or, if it wrongfully fails to install, then its liability is limited to the difference between the contract price herein, and the value of other similar installation work. If Contractor's breach damages any materials or equipment furnished hereunder, Contractor shall only be liable for the value of such materials or equipment. Under no circumstances will Contractor be liable for consequential, special or indirect damages, including without limitation, any crop loss or damage, damage to other equipment, structures or property, nor for any other similar or dissimilar damages or losses whether due to delay, failure to furnish or install, delay in installation, defective material or equipment, defective workmanship, defective installation, delay in replacing, nor for any cause or breach whatsoever. In any event, Contractor's total liability towards Purchaser for alleged faulty performance or nonperformance under this contract shall be limited to the total contract price. No materials, equipment or services contracted herein carries any guarantee not mentioned in this contract. THE ABOVE WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY DISCLAIMED.

TITLE AND OWNERSHIP: In case of default on Purchaser's part, Contractor shall have the right to enter the premises upon which any material or equipment furnished herein have been installed and retake such goods not then paid for and pursue any further remedy provided by law, including recovery of attorneys' fees and any deficiency to the maximum extent and in the manner provided by law. Such materials and equipment shall retain their character as personal property of Contractor until payment in full is received by Contractor, regardless of their mode of attachment. Unless prior specific written instructions are received to the contrary, surplus and replaced materials and equipment resulting from repair or installation work shall become the property of Contractor.

DELIVERY: Shipment schedules and dates, expressed or implied, are contingent on normal conditions. Contractor will not be responsible for any delays in shipment or completion caused by factors beyond its control such as, but not limited to, suppliers' failures, accidents, work stoppages or operation of or changes in the law. Shipments will be made as promptly as Contractor's ability to obtain materials and/or equipment and scheduling will permit. No delay in shipments or variances from shipping schedule shall be cause of cancellation or any claim for damage. Any changes in layout or design requested after acceptance of this contract will be made at Purchaser's additional cost. Any such change and/or time taken to supply engineering data or to approve drawings will automatically extend shipping schedules. Equipment will be shipped "knocked down" to the extent Contractor considers necessary, with small parts stripped from equipment and crates. On and after delivery to the carrier for transportation to the Purchaser's site, Purchaser shall be responsible for all loss or damage to materials or equipment due to any cause, including but not limited to loss or damage resulting from casualty.

INDEMNIFICATION: Purchaser agrees to indemnify and hold Contractor, its directors, officers, stockholders, employees, agents and subcontractors, harmless from and against any and all claims, demands, causes of action (including third party claims, demands or causes of action for contribution or indemnification), liability and costs (including attorneys' fees and other costs of defense) asserted and/or filed by Purchaser or any third party(ies), including without limitation Purchaser's employees, and arising out of or as a result of: (i) the presence of Contractor or its subcontractors at the job site, (ii) the work performed by Contractor or its subcontractors, or (iii) any negligent act or omission of Purchaser, its employees, agents, consultants, other contractors or any person or entity under Purchaser's control; except to the extent that such claims, demands, causes of action, liabilities or costs are caused by the negligence of Contractor or its subcontractors.

Re: DeKalb Well #14

Mr. Faivre:

Per your request, it is Layne's pleasure to provide this estimate to perform a maintenance inspection on DeKalb's Well 14 Byron Jackson submersible pump. According to Layne records, this pump was last removed 2005.

A Layne Tech visited the site yesterday to troubleshoot a tripping problem. He determined that the unit is experiencing a single phase issue between the controls and the submersible motor. Due to the security box over the pitless adapter, he could not meg the cable and motor from the well head. It is possible that the single phase issue is between the well head and the controls but more than likely the problem is with the down hole motor or cable.

If contracted, Layne will perform the work on a time and material basis per the attached Work Order Form. The following maintenance budget is based upon normal pump removal without unusual circumstances such as pump separation and based upon the crew, equipment, and time required removing and setting the pump in 2005.

DeKalb should be aware that the installation's Byron Jackson submersible motor is the most reliable motor available for northern Illinois' deep well application (over 400 in operation). The Byron Jackson submersible motor is a sophisticated machine that utilizes a mercury seal system and oil filled cooling/lubrication. Layne employs the only Technicians that are trained and authorized to manage and service these motors by the manufacturer.

Furthermore, as of 2012 Illinois legislation, Layne can no longer sell or distribute these Type H (mercury seal) motors. HOWEVER, if the motor is electrically and mechanically sound, the motor may be returned to operation with a simple service that includes oil, gasket, and filter change service at a vastly reduced cost and turnaround time as compared to acquiring a new motor. Layne employees are the only Technicians certified to perform this motor service.

WATER RESOURCES

It is difficult to budget the cost of necessary repairs prior to inspecting the pump components. It is Layne's custom to meet with an Owner representative and our Crew Foreman to conduct a preliminary inspection of the racked components on site. During this inspection, it is decided which components require additional clean up and inspection in Layne's Aurora, IL yard. (As DeKalb retains a spare bowl assembly, a spare motor, and spare Line Pipe, this inspection would be for the purpose of analyzing equipment that could be stored as spare components.) Layne encourages DeKalb to visit our yard to inspect components with us. At this point, Layne is in position to present a Pump Inspection Report with observations, recommendations, and an accurate repair cost estimate.

Pump Maintenance Budget Estimate

1. Mobilize, remove pump, rack on site, measure well total depth	\$17,500
2. Reinstall pump after necessary repairs, conduct capacity test to waste, demobilize	<u>\$22,500</u>
Total Base Maintenance Estimate	\$39,500

Possible Repair Costs, Services

A. Haul string of Line Pipe (column) from and to well site	\$11,000
B. Sandblast Line Pipe for inspection	\$ 3,000
C. Disassemble, clean, inspect bowl assembly	\$ 1,500
D. Hi-Pot test cable	\$ 1,300
E. Service Byron Jackson motor	\$ 9,000
F. Televiser well	\$ 1,500
G. Cut and rethread 10" Line Pipe	\$225 each
H. Sand bailing	\$431 / hr
I. Rough estimate to rebuild bowl assembly with bushings, wear ring, and impeller shaft	\$14,000

Possible Repair Costs, Materials

a. Byron Jackson 14", 200 HP, 460V, Type M (mechanical seal) factory exchange submersible motor (12 week lead)	\$93,947
b. Byron Jackson 6 stage 13MQ/12MQ CIBF bowl assembly (20 week lead)	\$33,645
c. 10" T&C Line Pipe, Layne inventory	\$129 / ft
d. Coat 10" Line Pipe with epoxy, inside and out	\$35 / ft
e. 10" Line Pipe Coupling, Layne inventory	\$276 each
f. 10" surge control valve, Layne inventory	\$1,790 ea
g. Byron Jackson flat cable motor link, Layne inventory	\$ 16,850
h. Estimate miscellaneous consumables; airline, stainless banding, etc.	\$ 1,000

Under assumptions that the bowl assembly, motor, and Line Pipe will be replaced by City spare components and the removed components will be inspected for their eligibility as future spare components, the budget estimate for the project is \$55,000.

Thank you for the opportunity to furnish this information. If you have any questions, would like to meet to discuss, or if Layne can be of any service, please do not hesitate to contact me.
